

ReSound Alera™

Sometimes the strongest
connections are the ones
you can't see

ReSound

rediscover hearing

Strong, invisible connections to the important things in your life...

People and surroundings

Enjoy a rich and vivid surround sound experience that seamlessly connects you to the people around you. **Page 4**

Your essential communication devices

Get strong, wireless connections to devices like your TV, mobile phone, computer, and stereo. No wires, cables or extra uncomfortable accessories to wear. **Page 6**

Your individual needs and preferences

Count on a hearing instrument that was carefully crafted to meet your individual needs with moisture protection that works no matter what your lifestyle **Page 8**

Strong, invisible connections to people and surroundings

Enjoy rich sound and clarity

When you're deep in conversation and there's a lot going on around you. That's when you'll really appreciate the rich sound and clarity that the surround sound experience in ReSound Alera™ delivers.

With the surround sound experience you:

- Understand speech better, even when there's background noise
- Keep a sense of what's going on around you
- Can locate where sounds are coming from

“The closest thing to what I imagine good hearing is for people without hearing loss.”

Hearing instrument user on the quality of Surround Sound by ReSound

Whatever the situation, you remain comfortable

The exceptional computational power in ReSound Alera™ enables advanced hearing improvement features and personalised settings that ensure you stay at ease as you go about your day.

You'll be amazed at how ReSound Alera™ automatically adjusts to changing sound environments.

Advanced features make sure you:

- Don't experience whistling or buzzing on the phone or when you hug someone, for example
- Enjoy music that sounds as clear and pure as it's supposed to
- Feel comfortable in the different situations you encounter every day

Strong, invisible connections to your essential communication devices

TV sound directly to your hearing instruments

Who wants to choose between watching TV alone, or feeling like you're disturbing other people with the volume turned way up? With ReSound Unite™ TV, you don't have to choose.

Now you can enjoy smooth and comfortable wireless connections to your TV, stereo, computer and phones.

With the ReSound Unite™ TV streamer, you can:

- Get sound transmitted directly from your TV to your hearing instruments
- Hear what's going on around you while watching TV
- Move around – and even if you leave the room, you're automatically reconnected if you return within 5 minutes

It works the same way with your stereo, computer and other audio devices. It's comfortable, reliable and discreet.

Note: Wireless capabilities depend on which ReSound Alera™ model you choose, and require the relevant ReSound Unite™ wireless accessory

Just answer the phone

Finally a solution that makes it easier to use a mobile phone. The ReSound Unite™ Phone Clip gives you a wireless connection between your Bluetooth®-enabled mobile phone and your hearing instruments. All you have to do is push the answer button and start talking.

The ReSound Unite™ Phone Clip:

- Delivers crystal clear, feedback-free sound
- Clips on to your clothes or your car's sun visor
- Allows you to leave your mobile phone in your bag or pocket

Remote control for complete command at a glance

The ReSound Unite™ Remote Control makes it easy to change programs, adjust volume and start streaming sound from the ReSound Unite™ TV streamer. The display gives you a visual overview of your hearing instruments settings.

Strong invisible connections to your individual needs and preferences

Every detail counts

Every aspect of ReSound Alera™ has been meticulously thought out to help you stay connected without having to think twice about it.

Durable and discreet features of the design include:

- Slim, curved shape in two very small sizes
- A comfortable, natural feeling fit
- Robust design you can count on
- Double filters for extra protection against earwax

Nano-coating protects down to the core

With iSolate™ nanotech, special treatment in a vacuum chamber guards every vital component of your hearing instruments against moisture. As a result, liquid that comes in contact with ReSound Alera™, for example, when it rains or when you're biking or enjoying other physical activity, simply beads and rolls off.

Lots of options to meet your individual needs

ReSound Alera™ offers a choice of colours and options in three models with different features. So your hearing care professional can match the shape of your ear, your particular hearing loss and your lifestyle, and give you just what you need.
